ABOUT ME

I am Bryan Ortiz Franco, a Web designer/Developer.

I am 24 years old and live in Haarlem. Since 2021, I have been studying Communication and Multimedia Design. Before this, I earned my degree in a course in Web development and graphic design. This allowed me to teach my fellow students about Adobe tools and Figma within my capabilities.

I'm also a sporty person, when I can I go and excercise almost every day, and in my spare time I like to take online courses to broaden my knowledge.
